

Art Menu

Directions: Choose one or more of the following options to stay creative while you are at home! ****PLEASE REMEMBER TO STAY SAFE AND HEALTHY DURING THE CLOSURE!!!****

Try to use the elements and principles of art in your work. You can review the elements and principles at <https://lundgrenart.weebly.com/elements-and-principles-of-design2.html>

Option 1: Go outside and collect interesting leaves, rocks, and other natural materials to draw or make into a sculpture.

Option 2: Use a camera or your phone to take close-up photos of things from a new perspective. Try it from a unique view that makes it abstract.

Option 3: Tell someone else's story during this time through a drawing or painting.

Option 4: Watch an online tutorial to teach yourself a new art skill, such as how to fold origami, drawing tutorials, etc. Art for Kids Hub is a great resource <https://www.artforkidshub.com/>

Option 5: Draw a picture using only warm or cool colors to express how you feel.

Option 6: Teach an art skill to someone else or learn something new together.

Option 7: Take a virtual tour of a museum and write about an artist or piece of art that you liked. MetKids <https://www.metmuseum.org/art/online-features/metkids/> or Tate Kids <https://www.tate.org.uk/kids> are great resources.

Option 8: Cut facial features out of a magazine and use them to create new, funny faces.

Option 9: Create a color wheel with objects that you find in your house, such as magazine pictures, toys, etc. Include primary, secondary, and intermediate colors.

Option 10: Pretend you are looking through a keyhole to a fantasy world. Draw what you might see. Color or shade your drawing when you are finished.

Option 11: Draw a portrait of someone and color or shade.

Option 12: Make a post-it note flip book.

Option 13: Try to do all of the challenges in the creative calendar!

Creative Calendar

Make a drawing that includes line, shape, and pattern	Draw an animal that is a combination of two or more animals	Draw the letters of your name and fill them with designs	<i>Choose an object from around your house and draw it from observation</i>	Draw three or more objects that overlap with each other
Design an athletic shoe, purse, or backpack	Design a skate park, museum, or other public space	Imagine that you created a new app. Design the logo for the app	Draw something that has symmetry (ex. Butterfly)	Create your own superhero
Design a store that would be made just for you	<i>Design your dream bedroom or gameroom</i>	Create a new label for your favorite food	<i>Design a bridge or a building</i>	Create a video game level or character
Draw something you think is pretty	Draw something you think is interesting	Challenge yourself: draw something you aren't good at	GO OUTSIDE AND DRAW	Use a mirror to draw a self-portrait
Design your own fashion line or clothing brand	Design a phone case	Design a treehouse or garden	Draw something from a bird's eye view (above) or a bug's eye view (below)	Draw your favorite dessert

Remember: Do your best, be creative, and use whatever supplies you have! Make sure to add color, value, texture, etc. to your mini masterpieces!
