

Third Grade Dolphin Diary

Shoot for the moon. If you miss, at least you will be among the stars!

May 16th-20th

Sparkler of the Week:

The public library can be an important part of your child's education. Not only does it contain thousands of books, but it can also offer your child a variety of reading-related activities. Here are some activities the public library may offer you and your child:

1. Some libraries have special story hours for youngsters of all ages, as well as "Meet the Authors" and discussion groups.
2. Often the library will schedule special workshops for children. These sessions will provide opportunities for young readers to create book-related projects such as mobiles, dioramas and posters.

If you have any concerns, please contact us at 281-412-1445. Thank you!
