

Nouns, Adjectives, and Verbs

Apply It

Write a story about something fun you have done or something fun you would like to do one day. Make sure your story is at least 6 sentences and included nouns, adjectives, and verbs in every sentence.

When you are done writing your story go back through it with either a marker or crayon and color the nouns green, the adjectives orange, and the verbs red (you can adjust according to the colors you have available if you need).
