I'm the Diamond Director! Tryouts are in March

Academic Expectations

Dance courses are designed to teach skills in ballet, modern, jazz, social and/or character dance styles. Choreography will be introduced in Dance I and will become increasingly important in upper level courses.

COURSE GOALS

- To be able to execute dance steps appropriate to the class level.
- To learn to appreciate dance in it's various forms.
- To establish a dance vocabulary appropriate to the class level.
- To improve overall physical coordination, balance, flexibility, and fitness.

You can be of help to me by stressing the importance of bringing their dance clothes and shoes to school on Mondays, and by emphasizing the importance of dressing out and meeting the instructional objectives of each activity. With your support, I will be able to reach the objectives I have for your child.

Plan/Protocols for Students out for IN/QN

- I will work with each student individually on alternate assignments so they do not fall behind
