

Joining Your AP Class Section

Joining Your AP Class Section - Please enroll in the correct period using the following instructions.

[Handout with illustrations takes you step by step through joining your AP class section online. \(Links to an external site.\)](#)

1. Get your join code(s) from your AP teacher. Note you will receive a unique code for each AP class you're taking and will need to enter each separately.

Period 1	ABCD12
Period 2	1234XY
Period 3	AB12CD

2. Sign in to My AP.

Use your College Board username and password to [sign in to My AP \(Links to an external site.\)](#). This is the same login you use to access your AP scores, PSAT/NMSQT® scores, or register for the SAT®--or that you used to access My AP last year. If you've never had a College Board account, you can create one via the **Sign Up** link. If you do not recall your username or password, do not create a 2nd account: instead email forgot password or user name. You will need to call College Board for assistance if you do not recall the email used to setup the account. Also, be sure to use a personal email as the school email does not accept content from outside the Pearland intranet.

3. Choose to join a course.

Click the **Join a Course or Exam** button.

4. Enter your join code.

Enter the join code your teacher gave you and click **Submit**.

5. Check the course information.

Make sure the information that comes up is for the course you are taking. If it is, click **Yes**.

6. Fill out registration information.

If this is your first time joining a class, you'll need to provide some additional information. You only have to do this once.

FAQ

I forgot my username or password—how do I get it?

Visit [Forgot Username? \(Links to an external site.\)](#) to have your username sent to the email address used to set up your account. If you know your username but not your password, go to [Forgot Password? \(Links to an external site.\)](#).

- If we have enough information to securely verify you online, you'll be asked one security question. If you correctly answer the question, you can reset your password online and immediately access your account.
- If we don't have enough information to securely verify you online or you wish to bypass the security questions, we will email a temporary password to you. There's an "Email Me My Password" option on the security question page.

For other problems, visit the Troubleshooting section in [Account Help \(Links to an external site.\)](#).

If you need additional help, contact AP Services at 888-225-5427.

What should I do if I have problems signing in to my account?

If you've forgotten your username or password, go to [Forgot Username? \(Links to an external site.\)](#) or [Forgot Password? \(Links to an external site.\)](#) and follow the instructions.

For other problems, visit the Troubleshooting section in [Account Help \(Links to an external site.\)](#).

If you need additional help, contact AP Services at 888-225-5427.
