

SCIENCE/SOCIAL STUDIES LESSON

MAY 4 - MAY 10

You will have a window of Monday at 12am through Sunday at 11pm to complete the assignments. Please go in number order as these plans have been arranged in a way to help you learn the curriculum.

SCIENCE LESSON: CLASSIFICATION OF ORGANISMS 6.I2CD

THE LEARNER IS EXPECTED TO: recognize that the broadest taxonomic classification of living organisms is divided into currently recognized domains and identify the basic characteristics of organisms, including prokaryotic or eukaryotic, unicellular or multicellular, autotrophic or heterotrophic, and mode of reproduction, that further classify them in the currently recognized kingdoms.

***All of these assignments are to be done through your [online Science textbook Accelerated Learning](#)**

- 1) Content Connections Video – Invading Plant Species. You do NOT need to do the questions.... ONLY watch the video!
- 2) Concept Review Game
- 3) Reading B – Read and answer questions
- 4) Post-Assessment – complete and submit

SOCIAL STUDIES LESSON: AUSTRALIA

THE LEARNER IS EXPECTED TO: explore the culture, history, geography, government and economy of Australia, New Zealand and Oceania.

- 1) Geography Now Australia Video – watch the video:
